DETAILED ACTION

Response to Amendment

Examiner acknowledges response by applicant's representative received 8/18/07. Examiner further acknowledges the cancellation of claims 1, 13, 18, 23-25 30 & 31.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 5 & 19-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Needler (592).

Regarding claims 5, 19 & 21

Needler discloses Playing Cards. His cards teach a suit on one side (clubs) and suit and value on the other. Needler only explicitly teaches clubs on one side only,

Art Unit: 3711

however, it would have been a matter of design choice to use any other suit (indicia) on the given side. Such would present little or no difficulty to one skilled in the art.

Playing cards are known to be used in the game of poker. It would have been obvious to use the cards taught by Needler, not only to play poker games, but in an electronic format in order to add options and generate excitement for the players.

Regarding the format or layout of the dealt cards, such would be merely a design issue and would present little or no difficulty to one skilled in the art.

Regarding claim 20

Needler teaches cards that are conventional with non-descriptive card-backs in the case of every other suit except clubs.

Allowable Subject Matter

Claims 3-4 & 22 are allowed.

The reasons for the indication of allowable subject matter will be held in abeyance pending applicant's response.

Response to Arguments

Applicant's arguments filed 7/17/07 & 8/18/07 have been fully considered.

Applicant's claim 21, as claimed, appears to be merely a design issue in the format/layout of dealt cards. Such is known in the art.

Independent claims 5 & 19 continue to claim the option of using **some** cards with suit only on one side. Needler teaches this limitation with his suit design (clubs) on one side and suit and value on the other side.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and are cited to show the state of art with respect to features of the claimed invention.
